ABSTRACT

This participant workbook contains goals and activities for children in the Bereavement Support Group Program for Children. The six session program is designed for children between the ages of 6 and 15 who have experienced the death of a loved one or other significant losses. Sections are devoted to death and grief, feelings and self-esteem, expression of grief, memories, funerals, and healing and coping skills. The workbook contains basic information on topics for each of the six program sessions with space provided for participants to make comments. A bibliography accompanies each session with suggestions for materials related to the topic. Children are encouraged to take the workbook home with them for their review and as a remembrance of the group as well as to share with their parents or guardians. (GCP)
